

Tushar Bhanushali

Full Stack Developer | Next.js

Vapi, Gujarat | dev.tusharbhanushali@gmail.com | tushardama.vercel.app | github.com/tushardama

Technical Skills

Next.js, Javascript, Mongo DB, Express.js, React, Node.js, Rest API, Git Version Control, HTML, CSS, Tailwind CSS, Framer Motion, Shadcn / UI

Projects

GoDinoType - godinotype.netlify.app Jul 2025 - Present

- Built real-time typing interface with dynamic quote rendering, WPM and accuracy calculation, and responsive caret feedback.
- Integrated Google and GitHub OAuth for user login and public leaderboard access.
- Enabled score persistence and session tracking with Firebase Firestore to generate sharable, verifiable result pages.

RankVibeHQ - rankvibehq.vercel.app Jul 2025 - Present

- Developed tool to fetch and deduplicate autocomplete suggestions from Google based on input permutations.
- Implemented keyword clustering by prefix/suffix logic and intent-type grouping for SEO content planning.
- Designed clean, responsive UI with exportable results and async multi-fetching for fast, uninterrupted suggestion loading.

ShrinkX - shrinkx.netlify.app Jul 2025 - Present

- Built user-authenticated URL shortener with 20-link limit enforcement, dashboard-based link management, and unique slug generation.
- Integrated GitHub and Google sign-in with session-based route protection using NextAuth.js.
- Implemented redirect handler, usage counter, and per-link metadata tracking with Prisma and MongoDB.

Luxury Developers - luxurydevelopersltd.netlify.app Jul 2025 - Present

- Designed premium real estate showcase site with animated transitions, responsive layout, and high-conversion visual hierarchy. For showcasing demo sites to freelance queries.
